

Our young, talented team is dedicated to finding the most cost-effective and sustainable solution for structural analysis in concrete, wood, and steel construction, as well as the creation of formwork and reinforcement plans for our clients and the environment.

To strengthen our team in Istanbul, we are currently looking for a

## **DRAFTSMAN / BIM-MODELER (m/f/d)**

Your Responsibilities:

- Creating position, formwork, and reinforcement plans using Allplan (2D/3D) / BIM
- Processing construction and workshop plans in steel and wood construction
- Independently managing projects in the field of structural engineering with a focus on concrete construction in all project phases
- Collaborating closely with architects, engineers, and other specialists
- Monitoring project construction

Your Profile:

- Successfully completed education as a Bachelor's degree holder, construction technician, or draftsman
- Proficiency in CAD programs (preferably Allplan) and EDC knowledge
- Curiosity about BIM planning and a willingness to contribute to this area
- Reliable and able to work independently

We offer you interesting and exciting tasks in the field of structural planning in a collegial working environment with long-term prospects and fair compensation. If you are interested in this job description, we look forward to receiving your application. Please send us your comprehensive application documents via email directly and confidentially to [info@edita-eng.com](mailto:info@edita-eng.com). By submitting your application, you consent to the processing of your data.
